Points Possible: 20

CULTURAL COMPETENCE IN HAZARDS AND DISASTER RESEARCH TRAINING MODULE ASSIGNMENT

Assignment Overview:

One of the objectives of this course is to provide students necessary tools and skill sets to prepare them for conducting research pertaining to emergency management and homeland security. Since research in this field often includes diverse settings and involves individuals and groups from different social and cultural backgrounds, it is crucial to understand the importance of cultural competence in research. This assignment enables you to identify different elements associated with cultural competence, and further offers approaches to develop cultural competence to facilitate your research. Below is the assignment instruction:

1. Register for CONVERGE Training Modules. The link to the CONVERGE Training Modules is provided below: https://converge.colorado.edu/resources/training-modules

2. Complete the Cultural Competence for Hazards and Disaster Research Training Module. You will complete all the lessons and take the final quiz at the end. You need to get at least 8 out of 10 questions correct to successfully complete the training module.

3. Once you have completed the training module, you will receive a Certificate of Completion. Upload your Certificate of Completion to the assignment submission link.
