About CONVERGE

CONVERGE is a National Science Foundation-funded initiative headquartered at the Natural Hazards Center at the University of Colorado Boulder.

The CONVERGE Training Modules are part of a larger initiative dedicated to identifying and training researchers and practitioners, improving research coordination, advancing the ethical conduct of research, and promoting convergence research.

Acknowledgements

The CONVERGE Training Modules are based upon work funded by the National Science Foundation (Award #1841338), with supplemental support from the Centers for Disease Control and Prevention. Any opinions, findings, conclusions, or recommendations expressed in this material are those of the authors and do not necessarily reflect the views of the NSF or CDC.

Training Modules

The CONVERGE Training Modules are free online courses designed to accelerate the training of hazards and disaster researchers and practitioners, with a special emphasis on students and early career professionals. Each module takes 30-60 minutes to complete and includes:

- Learning objectives;
- Written educational content;
- Case study vignettes;
- Suggestions for future research/practice;
- A list of publications and resources for further reading; and
- A final quiz and certificate of completion.

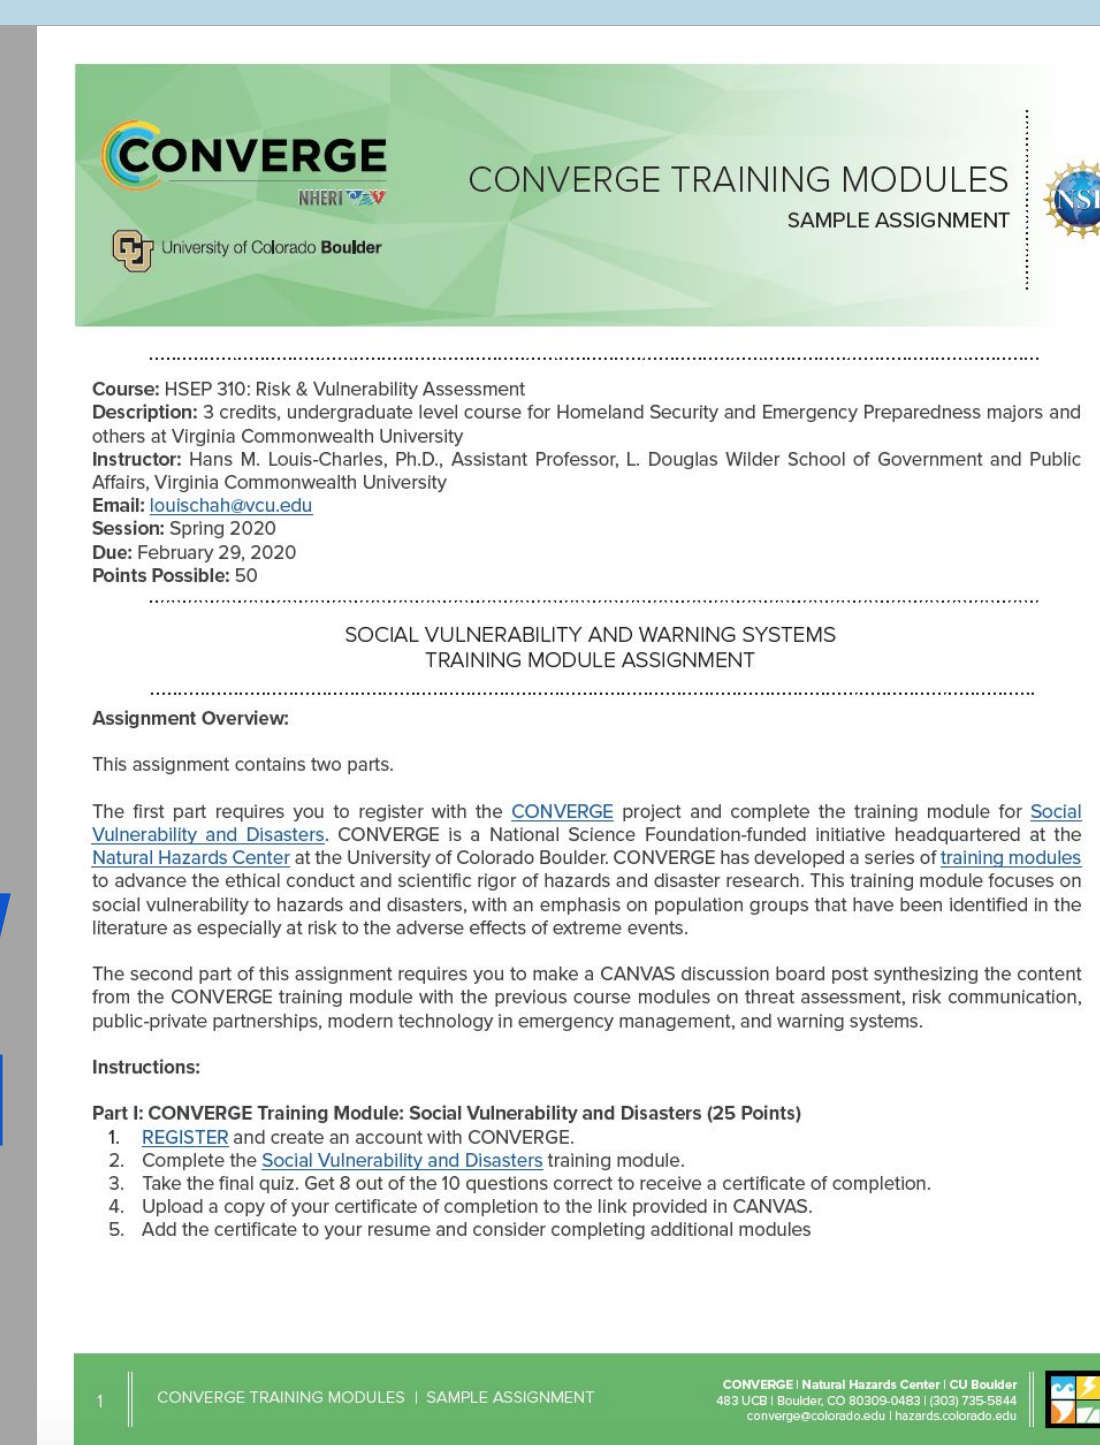

Access the free training modules at:
